MEDIA GUIDELINES

Due to space limitations, we request that you become familiar with the following information, so all accredited media representatives may work under the best possible conditions:

1. Upon presentation of an identity card, a permanent accreditation badge may be obtained at the media accreditation office located west of the box office at the north end of the stadium.
2. The accreditation badge is non-transferable and can only be claimed by the person for whom it is intended. Only media members who have received an official acceptance letter from the Tennis Canada media relations staff may receive accreditation.
3. A lost badge will only be replaced with the approval of Tennis Canada staff at a cost of \$5.00. The name on the lost badge will be noted for security purposes.
4. Media accreditation is available only for representatives who are on assignment for daily newspapers, radio and television stations, wire services, major weeklies, magazines and major online publications.
5. Use of accreditation for any purpose other than coverage of the tournament will lead to its immediate cancellation. Working members of the media are prohibited from asking for personal autographs or photos while on assignment. Inappropriate behaviour will result in your credential being revoked.
6. The George Gross Media Centre is reserved for accredited media representatives. Guests of media cannot be accommodated.
7. Only journalists and reporters with daily deadlines will have a reserved place in the media centre.
8. Only accredited media will be permitted access to interview areas.
9. With space allotted to photographers at Centre Court being very restricted, access is limited to those carrying a photo pass. These plastic badges, distributed at the media centre, must be returned the same day and immediately after use.
10. Volunteers will be situated in the George Gross Media Centre to assist accredited media members in fulfilling whatever requests they may have. These individuals are stationed behind the administration desk near the media centre's main entrance.
11. The media room on-site is fully equipped. It includes a high speed wireless internet connection which requires laptops that are wireless 802.11b or 802.11g compatible. Wired Ethernet connections will also be available.
